The Cookson Company, Inc. and LEED® for New Construction

LEED (Leadership in Energy and Environmental Design) is a voluntary, consensus-based national rating system for developing high-performance, sustainable buildings developed by the U.S. Green Building Council (USGBC).

The LEED for New Construction and Major Renovations Rating System guides and distinguishes high-performance commercial and institutional projects. The Rating System consists of six categories, listed with Cookson's contribution toward them as follows:

- 1) Sustainable Sites. This category is not applicable to the use of Cookson products.
- 2) Water Efficiency. This category is not applicable to the use of Cookson products.
- 3) Energy and Atmosphere. This category is not applicable to the use of Cookson products.
- 4) Materials and Resources

Materials and Resources Credit 4.1 and 4.2: Recycled Content Percentage

Cookson product components contain Post Industrial and Post Consumer recycled content as listed below. Please note that Product Type and Product Size determine the final Recycled Content calculation percentage. Precise Recycled Content information can be provided when dimensioned products are identified.

Cookson Recycled Content, 2009

- ◆ Prepainted Steel Curtain and Hood Material (45% total weight of door)
 - 6% Post Industrial
 - 39% Post Consumer
- ◆ Structural Steel Guides, Barrel, and Bottom Bar Angle (50% total weight of door)
 - 9.5% Post Industrial
 - 64.5% Post Consumer
- ◆ General Steel Components in Shafts and Brackets (5% total weight of door)
 - 11% Post Industrial
 - 78% Post Consumer
- ◆ Stainless Steel Curtain and Hood (45% total weight of door)
 - 58% Post Industrial
- ◆ No recycled content in Aluminum
- ◆ No recycled content in Structural Stainless Steel Guides

- ◆ Total Post Industrial Recycled Content of Steel Service Door 8%
- ◆ Total Post Consumer Recycled Content of Steel Service Door 53.7%

Materials and Resources Credit 5.1 and 5.2: Regional Materials

Manufacturer Locations:

- ◆ The Cookson Company, 800 Tulip Drive, Gastonia, North Carolina 28052
- ◆ The Cookson Company, 2417 South 50th Avenue, Phoenix, Arizona 85043

Minimum percentage of recycled material used in manufacture of this product:

- ◆ 40%

Minimum percentage of material that is procured within a 500-mile radius of manufacturer:

- ◆ 65%

This letter is to certify that the above product/material contains the minimum percentage of recycled material and minimum percentage procured material in a 500-mile radius of manufacturer as noted. Percentages are based on information received from our vendors and have been represented to The Cookson Company as true and accurate.

- 5) Indoor Environmental Quality. This category is not applicable to the use of Cookson products.
- 6) Innovation and Design Process. This category is not applicable to the use of Cookson products.
