

COUNTER FIRE DOORS WITH SILL & TRIM

As with Cookson Service Counter Doors, all FD10 Counter Fire Doors are designed and manufactured as counter doors rather than being constructed of regular fire door components reduced in size to meet counter fire door size requirements. This compact design improves appearance without compromising safety.

New Madras Middle School - Newnan, Georgia

The features of Cookson's Counter Fire Door with Sill and Trim are the same as the Service Counter Door with Sill and Trim, plus the fire rating advantages of other Cookson products.
